We come here before you today God, with new energy, a love of children and having a renewed sense of respect and love for each other.
We pray not only for each other but especially for the young people in our care.
We ask that your Holy Spirit come down on us and guide us each day as we take up the challenges you put before us. Amen

Dear Parents and Guardians,

Congratulations to all involved in our Junior Carnival last Friday. What a wonderful day and well supported by friends and families.

Dawne Peacham: The weather was perfect for our games and due to the restricted use of the oval this term we made the carnival a tabloid games event. The students in PP, Years 1 and 2 were working in Faction teams and each team played a total of 12 games including sprint and relay races.

I think there were a few exhausted children at the end of the morning but everyone looked as if they were having a great time and the faction T-shirts and bibs looked very colourful.

Thanks to all those parents who came and watched their children playing the games and thanks to the P & F for the sausage sizzle.

Accompanying this newsletter are 10 flyers per family to advertise the fete. Please drop them in letterboxes in your neighbourhood. Thank you.

God bless you,
Eileen Climo
Principal

Fete Flyers – 10 per family

VISION STATEMENT
St Andrew’s CPS offers an education that acknowledges, respects and nurtures the uniqueness of each person.
Within a framework of Catholic values and teamwork, the students will be challenged and supported to recognise their gifts and develop their potential as they learn and contribute to their community.

SCHOOL MATTERS

UNIFORMS

Preprimary uniform orders for 2010 are now available for collection from the uniform shop.
This year we are going to see if we can build a “mountain” with food and Christmas items for St Vincent de Paul. We will be creating this in the library. Every time you bring something in for SVDP, we will add it to our mountain and watch it grow.

When school is closed over the long summer holiday the SVDP really miss our contributions, so let’s see if we can do ourselves proud and build a really HUGE mountain. It’s great to receive at Christmas, but it is just as satisfying to give.

We are looking for the following items:
Cereals, long life milk, vegemite, jam, pasta, rice, baby food, long life juices, coffee, tea, milo, pancake mixes, sauces, etc.

The following tinned items:
Ham, beans, vegetables, spaghetti, fruit.

Special Christmas goodies:
Biscuits, crackers, jellies, tinned cream, Christmas puddings, Christmas cake, chips, etc.

If you wish to bring in some small new toys to add to our mountain that would be great too. e.g., colouring books, pencils, etc.

Thank you for your continued generosity in this area.
Bridget Jones, Assistant Principal

PARISH NEWS

ST ANDREW’S DAY
St Andrew’s day food fair will be on Sunday 29th November, 2009 between 7.30am to 2.00pm. The Fair will be held at St Andrew’s Catholic Church Grounds (Corner of Belleville Gardens and Victorsen Parade, Clarkson WA 6030. Come and enjoy St Andrew’s day celebrations with fabulous food, family fun, music and entertainment.

P&F NEWS

FETE NEWS: Please bring in any of the following items to the 2nd hand uniform shop area to be sold at the fete. Bric-a-brac /clothing / books / CD’s / toys / unwanted new gifts (please label “new”). We are also looking for donations of cakes and plants. These need to be brought in the Friday before the fete or on the day. Thank you.

COMMUNITY NEWS

QUINNS ROCK BLUE LIGHT DISCO

Date: Saturday 14th November 2009

Location: Gumblossom Hall, Tapping Way, Quinns Rocks (turn into Quinns Road off Marmion Ave and right at the roundabout). Time: 6.30pm to 9.00pm, Doors open at 6.15pm. Age: Children aged 8 – 13 years of age will be admitted. Tickets: $5.50 (inc GST) available at the door. Notes: Due to safety reason, enclosed shoes must be worn at all times, and all children must be picked up at the conclusion of the event by a parent or guardian. Parents are encouraged to stay at events if they wish.
2B’s facts on the Solar System

1. Venus is the hottest planet in the solar system. The surface is hot enough to melt metal. The planet’s great heat comes from its closeness to the sun. But the heat is also due to the planets cloud cover. (Rhani)
2. Jupiter has 17 smaller moons. (Dylan)
3. Jupiter has a red spot that represents a storm that has been there for more than 300 years. (Hannah)
4. Mercury is very, very hot because it is the closest to the hot sun. (Carey)
5. Voyager 2 was the only Probe to reach Uranus. The probe flew by at a distance of 107,000km (67,000 miles) and revealed little detail on the planet. (Trent)
6. Jupiter is the biggest planet. Jupiter is heavier than all the other planets put together. It is a huge globe of liquid and gas covered by circular bands of cloud. (Caleb)
7. Within the sun atoms of hydrogen are continually split apart. (Samuel)
8. Mars looks like a parched red desert. Even the sky looks red because dust is blown into the air by the Martian winds. (Chelsea)
9. Jupiter, Saturn, Uranus and Neptune are all made out of liquids and gases. (Kaelena)
10. The Earth is the third planet from the sun. (Jackson)
11. Never look at the sun directly with your eyes. It is so bright that it will damage your eyes and may cause blindness. (Victoria)
12. The gas and liquids that make up Uranus give it its bluish colour. (Taylor)
13. Jupiter is 774 million km from the sun. (Jacob)
14. The surface temperature on Mercury can reach 427°C however; the temperature on the dark side of the planet can sink to -183°C. (Mikayla)
15. Mercury, Venus, earth and Mars are all made out of rock. (Ben)
16. Jupiter is the fifth planet from the Sun. (Nipun)
17. Neptune has an atmosphere containing some methane, making the planet appear a bluish colour. (Martina)
18. Like Saturn’s rings, the rings around Uranus are divided into lots of separate rings. (Emily)
19. Jupiter is the biggest planet in space. (Jazminblu)
20. When the very biggest stars die, they form red supergiants, and then explode into a supernova. (Niall)
21. Saturn’s rings are made up of lots of little ringlets. (Jaden)
22. Jupiter is the fifth planet from the sun, after Mercury, Venus, Earth and Mars. It is the closest of the gas giants. (Ciaran)
23. Only Mercury and Venus do not have moons. (Jake)
24. Mercury is the innermost of the solar system’s eight planets. (Kayla)
25. Pluto is no longer a planet. It is now known as a dwarf planet. Pluto was known as a dwarf planet ever since 2006. (Julia)
26. Like Jupiter, Saturn’s surface is patterned in bands. Although Saturn does not have a startling feature like Jupiter’s Great Red Spot, it does have storms of it’s own in the form of white spots, brown spots and a red oval. (Emma)
